

R-Controlled Vowels: Pattern Pick-Up Directions (for 2 or more players)

1. Copy the first three pages of cards on one color cardstock and cut apart. Shuffle and arrange in 4-5 piles face up in a circular arrangement.
2. Copy the last two pages of cards on a different color cardstock than the first three pages and cut apart. Shuffle and place in a pile in the center of the circle face down.
3. On a turn: A player will turn one card over in the center pile and read the pattern out loud. Then, they need to read the word out loud and pick up all the cards in the circle arrangement that match the center pattern card. They keep the cards and their turn ends. If a player can't find any cards that match, they may either skip a turn or flip over a new pattern card to try again.
4. The next player flips over a new card in the center pile to repeat step 3.
5. Keep playing until all the cards in the circular arrangement are gone.

**Shuffling the cards well for this game is important!*
