### How does this digital resource work?

It's a Google slides presentation that teachers and tutors can use for teaching in their Orton-Gillingham lessons. If you haven't created a free Google account, you will need to do that before beginning to use this digital resource.

### **BEFORE you begin editing/working in your digital resources:**

- It is VERY important to first save a copy of the file, on your own Google Drive first.
- The original file is set to "View Only" so you can't edit the original one.
- You must make a copy in order to have editing ability, which in this case would mean taking one page of slides and pasting it to your own lesson presentation. Then, share that copy with your students, but only allow them to have viewing capability (not editing).
- ***Online Teachers and tutors: Copy/paste it in your own presentation for your students.***
- ***Remember to review my terms of use. Thank you!***
