

Welcome to The O-G Instructors Book Discussion Group's Reading Room!

Who we are:

We are a group of educators with a passion for studying all aspects of structured literacy, the science of reading and the latest brain research. Books in the group are chosen by voting. We meet weekly in a Facebook group to discuss 1-2 chapters. On average, we have read 3-4 books per year together.

How you may use the reading room:

The Reading Room has clickable links attached to every book title. Once you open the link, it will ask you to make your own copy in Google Drive. The discussion guides are ones that have been created over time for the group. You have permission to use the discussion guides, but please be sure to credit back to the book group and Emily Gibbons. The guides may not be sold. This reading room is a labor of love and will continue to grow as we read more books!

Thank you for visiting The Reading Room!
